

**On Wednesday, March 7<sup>th</sup>, 2018 come join us for Dinner and to hear our Guest Speaker:**

**Nigel Southway**

**Presenting:**

**“ LEAN Sustainable Supply the Next Industrial Revolution”**

**Presentation Summary:**

The next Industrial Revolution will be the perfect storm of LEAN business thinking, the emergence of Industry 4.0 Cyber Physical Systems and significantly more Sustainable Supply Chains.

We will provide a detailed explanation of these business disruptors, and how they will significantly effect business strategy.

We will explain how this revolution will have a significant impact on current business practices and why some will become obsolete, and why management thinking must adapt.

Also, we will project the outlook and opportunities for Canadian business as this revolution unfolds and a roadmap for planning and undertaking a proactive competitive journey.

### About the Speaker:

**Nigel Southway** C.Eng. IEEE . MSc BIM. SME. Author of CYCLE TIME MANAGMENT ...Fast Track To Time Based Productivity Improve. A groundbreaking LEAN Thinking text book.

Nigel has more than 40 years broad business and industry experience and the Owner of NEXUS CONSULTING SERVICE and provides coaching and education on Business Productivity Improvement and Advanced Manufacturing Engineering to all types of business sectors and industries and helps clients develop a strategy and a vision to attack waste, capture productivity improvements, increase profits, and become more competitive in the global market.

Nigel is a product of the British Engineering Apprenticeship Award program with a British degree in Engineering and a Masters Degree in Management studies from Bristol England.

After a career as an Engineering manager and change agent at Motorola in the early 80's he joined the CTM INC consulting team that sphere-headed the education and facilitation of Continuous Improvement principals to industry in the late 1980,s In 1992 he co-authored the textbook CYCLE TIME MANAGEMENT the fast track to time based productivity improvement on the concept and implementation of Business Cycle Time reduction, which became one of the advanced thought-wares that later developed into the more commercial LEAN thinking concepts and application.

He is currently Coaching, consulting and Educating worldwide on LEAN Business Improvement Initiatives, Joint Ventures, New Product Introduction Systems and Global Technology Transfer projects, Also, assisting many organizations with Advanced manufacturing, Global balanced sourcing and manufacturing logistics with a recent emphasis in Mexico, China, Russia Ukraine and of course CANADA.
